## Raising Kids in a Digital World

Our kids are growing up in a digital world none of us experienced, and it's shaping their mental health, relationships, and sense of identity in powerful ways. *Childhood 2.0* explores how social media, smartphones, and online culture are impacting today's children and teens, while also offering practical insight and hope for parents. We encourage all parents to watch this documentary as a tool to better understand what our kids are facing and how we can guide them with wisdom, grace, and intentionality.
